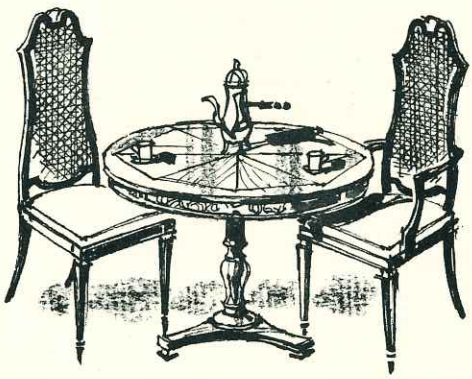
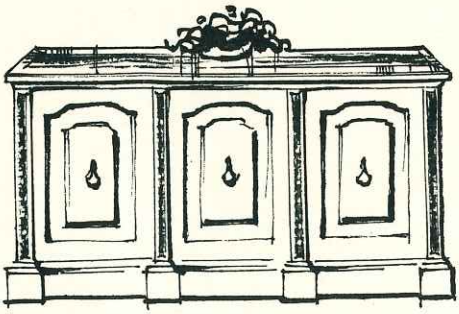
Rich, warm, inviting . . . Repertoire is thoroughly comfortable and unusually adaptable. The prices? Realistic. Just ask your Drexel dealer and see!

by Drexel®

This is REPERTOIRE... a fresh, compelling new design by Drexel which derives its inspiration from the great styles of the past. In Repertoire, designers Mitchell Boss and Thomas Prangley have interwoven Palladian architectural details with Chippendale and Regency styling to recreate the warmth of tradition in a definitive collection for living, dining and bedrooms.

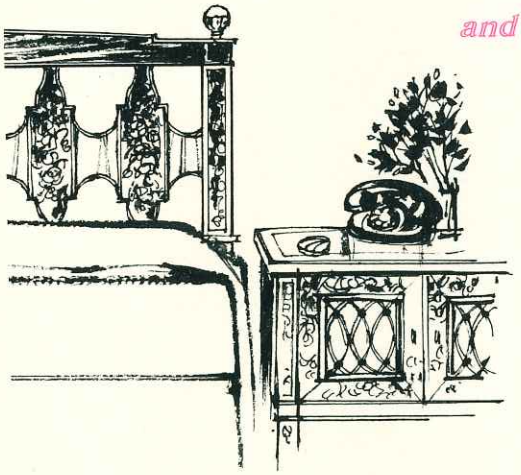
You'll like its look of rich, but restrained elegance reflected in the light, lustrous cherry veneers and solid mahogany with lavish accents of Carpathian elm burl. The stunning contrast of textures and mellow wood tones has been enhanced by elaborate ormolu mounts and brass grilles which combine to characterize the individuality and beauty of this important new Drexel





collection. Unusual *accent*

pieces with bamboo-turned posts finished in black



and gold, plus Neostone tops (made

from a specially developed

material with all the

beauty and practicality

of fine marble) lend

additional charm and

interest to Repertoire. Whether your rooms are

large or small, you will find

a choice of well-scaled

pieces that will combine to

create an effect that is

elegant, distinctive,

and harmonious. by Drexel®
